Jl. Rahayu No 91 RT.03 RW.01 Kel.Tengah Kec. Kramatjati, Jakarta Timur, DKI Jakarta. 13540.

I am a forward-thinking IT enthusiast currently studying at Diponegoro University. With expertise in cutting-edge frameworks like CodeIgniter and Navicat, I have a solid foundation in web development. In addition, I am actively expanding my expertise exploring various other frameworks. However, my passion goes beyond technology. I am very interested in the dynamics of Supply Chain Management, Logistics, Trading and Exporting. My goal is to integrate my IT capabilities seamlessly with this domain, unlock innovative solutions and drive operational excellence.
